

WIPO Advisory Committee on Enforcement (ACE)
17th Session
Geneva, February 4 to 6, 2025
Intervention by India under Agenda Item 7: Work of the ACE

Thank you chair for giving me the floor.

1. Enforcement is vital component of IP regime. The Indian delegation thanks Secretariat and all present for organizing an informative exchange of information.
2. India continues to believe that the work of ACE should be in accordance with the Development Agenda Recommendation 45. We would like WIPO to focus on issues like promotion of technology transfer and knowledge sharing, ensuring that all countries have the opportunity to contribute and benefit.
3. Approach to enforcement should be broad and holistic to ensure it is in line with the objectives of Article 7 of the TRIPS Agreement as well. Some of the discussions on development, access to technology and digital transformations happening at the global multilateral for should have a resonance in WIPO's work on ground as well, including under the enforcement spectrum. We look forward to working closely with WIPO under ACE.

Thank you.
